Chris Tremblay, UMaine, Course Instructor (Ex Officio)
Nicholas Keeney, Hurricane Island, Marine Data Specialist / Deckhand
Madeleine Regulla, Hurricane Island, Research Assistant / Deckhand
Michael Whitten, Hurricane Island, Waterfront Manager / Captain
Will Edwards, Hurricane Island, Captain
Megan Moroney, Hurricane Island, Program Manager

Activities to Schedule

There are about 24-28 hours available for activities during normal operating hours, including staging, field work, discussion, data analysis, etc. There are about 18-20 hours for on the water activities.

There is a spreadsheet of activities and details here: [2026 Activities](#)

Overall Expectations

- There will be direct transportation from Journey's End headed out, but you will need to take the ferry for the return trip.
- To accommodate increased boat use, we are scheduling all vessel activities around regular ferry runs and meals. Field work requiring vessels is 9AM-12:30PM and 1:30-4PM
- Programs participate in meal chores and cleanup, because of the tight schedule during the day we will likely have you only help out after dinner
- You can expect 2 staff members for support during normal work hours. We will split the group into two to maximize hands-on time. This means that most small group activities will be repeated.
- Expect everything to take longer than you think!

Tuesday 8/25/26

Low tide: 3:55PM, High tide: N/A

10:00 Arrive at Journey's End Marina
10:00-10:30 Board Equinox

10:30-11:30 Travel to Hurricane
11:30-12:30 Welcome Circle and Move In
12:30-1:30 Lunch
1:30-2:45 Field Session (1.25 hours)

- Sustainability Hike

2:45-4:00 Field Session (1.25 hours)

- Lobstering & eMOLT

4:00-6:00 Shore Session (2 hours)

- Mooring and week guiding seminar (Tiago and Andrew)

6:00-7:00 Dinner & Cleanup
7:00-Free time

Wednesday 8/26/26

Low tide: 4:37PM, High tide: 10:36AM

8:00-9:00 Breakfast
9:00-12:30 Field Session (3.5 hours)

- Boat: Hydrophone Mooring Recovery (Group 1)
- Lab: Buoy Building, Sonde Calibration, Cruise Briefing (Group 2)

12:30-1:30 Lunch
1:30-4:00 Field Session (2.5 hours)

- Lab: Hydrophone Mooring Building - Rigging and new instruments (Group 1)
- Boat: Buoy Deployment + Vertical Profiling (Group 2)

4:00-6:00 Shore Session (2 hours)

- Intertidal Survey

6:00-7:00 Dinner & Cleanup
7:00-Til Sunset Rock (weather dependent) or Game Night

Thursday 8/27/26
